Psychology B.S. Degree Capstone Psy 499 Research Project Summary *

Note: At least one of the 499 Directed Research courses used to fulfill the requirements for the Bachelor of Science must involve direct research experience in a professor’s lab. Ideally, you should do two semesters in the same lab, but this is not required.

In conjunction with the required Directed Research you have done, you must submit a summary of your research involvement. The summary needs to be no more than two pages, APA style not required.

1. Describe your role in the research project.

2. Describe the research hypothesis.

3. What results did you find?

4. Describe the significance and implications of the results.

5. No grade is given and neither yours nor your supervisor's signature is required.

6. Due a month prior to the end of your semester of graduation.

*Submit via email to Dr. Sinnett (ssinnett@hawaii.edu)
